

# Applied Economics Quarterly

## Konjunkturpolitik

Applied Economics Quarterly is an international journal publishing applied research with strong relevance for economic policy. Contributions to all areas of economics are invited; in particular, macroeconomics and monetary policy, international economics, economic growth, finance, trade, and labor economics. The journal's goal is to improve economic policy-making by providing a forum for innovative and rigorous research. The journal is particularly interested in publishing work on European policy issues. Applied Economics Quarterly also occasionally publishes symposia and special issues on current policy-relevant issues in contemporary economics.
